Abstract of JP2003010175

PROBLEM TO BE SOLVED: To provide an X-ray radiographing table suitable when photographing an object by using a portable X-ray equipment (an electronic cassette type photographing device) containing a solid imaging element, and the X-ray equipment using this table.

SOLUTION: The X-ray equipment is composed of a gripping part capable of gripping a cable possessed by the electronic cassette type photographing device or connected to the photographing device, and a guide part for movably supporting the gripping part along an outside edge part of a top plate.
